

Wendy Masters

Wendy Masters is a master watercolour artist who has painted and exhibited for many years. Also using clean colours and confident brushstrokes, her paintings come to life and freshness. As well as her expressionistic scenes of Wellington and Kapiti coast, Wendy is also a very skilled and admired still life artist.

In her artworks she looks for shapes, shadows or lines which echo and reinforce each other. Sometimes she draws with a permanent medium under or over the paint, a combination of mediums that she really enjoys.

Wendy Masters is competent in a range of media - from textured clay figures, to sculptures in bronze and wonderful paintings in watercolour. Wendy paints that which surprises and delights her, from life, or from her own drawings and photos. Painting and sculpture have been her main work for over 40 years, and she has exhibited and taught both mediums extensively, with artworks in public and private collections.
